ALL-SEASON SPRAY IRRIGATION

INNOVATIVE AND COST-EFFECTIVE ALTERNATIVE TO TRADITIONAL EFFLUENT DISPOSAL SYSTEMS

Norweco's All-Season spray irrigation system has been developed and tested to provide homeowners with a safe and convenient method of effluent disposal. Designed to maximize water reuse, spray irrigation is a simple and low-cost method of effluent disposal for properties with marginal soils and challenging topography. Our spray irrigation system is specifically engineered to operate in the harshest weather conditions, eliminating the need for unsightly sand mounds, direct discharge, drip irrigation or large absorption fields. Norweco's All-Season spray irrigation system is a reliable and economical solution that distributes disinfected effluent directly onto the homeowner's lot. The treated effluent is sprayed in a discreet location, where it is safely returned to the environment through evaporation, soil absorption and moisture uptake by grass, trees and other vegetation.

THE ALL-SEASON SPRAY IRRIGATION SYSTEM FEATURES AN ADJUSTABLE SPRAY HEAD, VACUUM RELIEF VALVE, PRESSURE GAUGE, SCHRADER VALVE, ELECTRICAL ENCLOSURE, ZONE SHUTOFF VALVE, HEAT TAPE WITH FACTORY PRESET THERMOSTAT, AND ANTI-FREEZE DRAIN VALVE FOR ALL WEATHER CONDITIONS. PROPERTIES WITH A NORWECO SPRAY IRRIGATION SYSTEM MAY QUALIFY FOR GREEN BUILDING CREDITS UNDER THE LEADERSHIP IN ENERGY AND ENVIRONMENTAL DESIGN (LEED) RATING SYSTEM. LOCAL NORWECO DISTRIBUTORS ARE FACTORY TRAINED AND LICENSED TO SERVICE EVERY NORWECO ALL-SEASON SPRAY IRRIGATION SYSTEM TO INSURE IT OPERATES AT PEAK EFFICIENCY. WHEN PROPERLY DESIGNED, SPRAY IRRIGATION IS COST-EFFECTIVE, DEPENDABLE AND BENEFICIAL TO THE ENVIRONMENT.

- Heat tape and anti-freeze drain valve prevent freezing during harsh winter conditions
- Easy to install with minimal maintenance
- Solves effluent disposal on complex sites
- Saves money by eliminating the need for expensive sand mounds
- Industry leading warranty
- AT 1500 UV disinfection system or Blue Crystal tablets eliminate pathogens in the effluent prior to spray irrigation
- Adjustable spray head to meet multiple onsite applications
- Meets state health department regulations
- Used with the CSA certified Service Pro WASP control center

The All-Season spray irrigation system components have been listed, licensed and/or certified by each of the following agencies/organizations.

Progress Through Service Since 1906

We engineer, manufacture, install and maintain advanced water and wastewater treatment technologies for residential properties, communities and commercial properties that are not connected to sewer lines. Norweco treatment systems are in service all over the world.
