LF 1000 BIO-DYNAMIC TABLET FEEDER

Our LF 1000 Bio-Dynamic tablet feeder is listed to Standard 385. The dry chemical dosing chlorinator is easy to install within a treatment system or to replace faulty alternative dosing equipment. The LF 1000 with Norweco's chlorination tablets provides the most cost-effective, efficient and reliable disinfection options available on the market.

DISINFECTION TABLETS

Blue Crystal and Bio-Sanitizer disinfecting tablets provide consistent and inexpensive bacteria killing power. Norweco's TCEQ approved treatment systems, drip disposal, spray irrigation and disinfection products provide a complete solution to meet all of the regulatory requirements in the State of Texas.
