

# SINGULAIR GREEN®

## With Integral Bio-Film Reactor

The Singulair Green tank is the strongest and most dependable high density polyethylene tank in the industry. Our latest innovative design features an integral Bio-Film Reactor that is factory installed downstream of the Singulair Green tank making for a simple and quick installation. The Singulair Green with integral Bio-Film Reactor provides a reliable, single tank solution for markets with stringent regulations.

Additional transfer port features

Added connection points on inlet and outlet walls

Modified rib pattern allows for system expansion

- ◆ Single tank solution with uncompromised structural integrity and long-term performance
- ◆ Reduces BOD and TSS in wastewater that has already been treated to very high levels through the Singulair Green system
- ◆ Produces superior effluent quality that can extend the life of the disposal system while meeting and exceeding stringent regulations
- ◆ Three systems can be shipped in a 53' trailer
