# SINGULAIR GREEN® LOW PROFILE SYSTEM

**DESIGNED WITH 6" RISERS, THE INNOVATIVE SINGULAIR GREEN LOW PROFILE SYSTEM MAKES SHALLOW INSTALLATIONS MORE VISUALLY PLEASING TO CONTRACTORS AND HOMEOWNERS**

The Singulair Green low profile system is specifically built for shallow installations and allows for 6" risers on all three chambers of the high density polyethylene (HDPE) tank. This innovative system, combined with our Model 225L aerator and heavy duty tank, is engineered to be the solution for these challenging applications. The low profile Singulair Green system will blend into the landscaping of any home or commercial installation.

THE **UL LISTED SINGULAIR MODEL 225L LOW PROFILE AERATOR** COMBINES ADVANCED ELECTRO-MECHANICAL COMPONENTS WITH ENERGY EFFICIENCY. THE AERATOR FEATURES A TOTALLY ENCLOSED, NON-VENTILATED, SPLIT PHASE, 1725 RPM MOTOR THAT IS RATED AT 1/6 HORSEPOWER. THE MOTOR OPERATES ON 115 VOLTS OF SINGLE PHASE, 60 CYCLE ELECTRIC POWER. THE DURABLE AND RELIABLE MODEL 225L DRAWS FOUR AMPS DURING OPERATION. IN RETURN, THE AERATOR DELIVERS THREE CUBIC FEET OF AIR PER MINUTE TO INSURE COMPLETE OXIDATION OF THE ORGANIC MATTER BY THOROUGHLY MIXING THE CONTENTS IN THE AERATION CHAMBER. BUILT WITH PROVEN WATERTIGHT INTEGRITY, STATE-OF-THE-ART BALL BEARINGS, RADIAL AIR INTAKE OPENINGS AND NEMA 6P RATED WATERPROOF ELECTRICAL CONNECTIONS, THE UNIQUE DESIGN OF THE SINGULAIR MODEL 225L AERATOR OUTPERFORMS AND OUTLASTS THE COMPETITION.

Based on our industry-leading Model 206C aerator, the Model 225L features shorter brackets, a modified lifting handle and an updated aspirator shaft which are essential for installation in our 6" UV protected, HDPE aeration riser. Each Model 225L aerator is ANSI/NSF certified to operate only 30 minutes per hour and runs cooler, cleaner, quieter and longer than any other air delivery system in the industry.

- Discreet low profile design
- NSF Std. 40, 46, 245 and 350 certified
- CSA certified and UL listed aerator
- CSA certified and UL listed control center
- Reliable, long-term performance
- Easily maintained from grade
- Retrofit packages available
- Made in the U.S.A.
